What We Offer

INTRO- DUCTION

Welcome to Josben International College UK's ATHE Extended Diploma Level 4 Programmes in Business Management, Accounting, Computing, Law, Health and Social Care; designed to bridge the gap between your current qualifications and the requirements for undergraduate studies in the UK. Our programme provides a supportive and stimulating environment for international students to develop their academic and English language skills. On successful completion of the programme you can progress on to Level 5 in your chosen area of exit into university Year 2.

We have campuses both in the UK and Nigeria where students get to choose where they want to be.

COURSE PATHWAYS

- Level 5 Extended Diploma in Accounting (6-9 months)
- Level 5 Extended Diploma in Computing (6-9 months)
- Level 5 Extended Diploma in Business Management (6-9 months)
- Level 5 Extended Diploma in Law (6-9 months)
- Level 5 Extended Diploma Health and Social Care.

AWARDING BODIES

- ATHE UK (Undergraduate Programmes)

Level 5 Extended Diploma in Accounting

Unit Name	Unit Aims	Credits	Mandatory
FINANCIAL REPORTING	The aims of this unit are to ensure that students have a sound understanding of the techniques of double entry accounting and can apply its principles in recording transactions, adjusting financial records and preparing non-complex financial statements.	30	Yes
FINANCIAL MANAGEMENT	The unit aim is to develop the financial management skills for those who manage or seek to manage the performance, risk and financial decision-making needs of small and medium enterprises (SMEs), and small and medium practices (SMPs).	30	Yes
FINANCIAL AND MANAGEMENT CONTROL	The aim of this unit is to develop the financial management skills of those who manage or seek to provide information for performance management, continuous improvement, budgetary and financial control and the management of internal risk in small and medium enterprises (SMEs) and small and medium practices (SMPs).	30	Yes
BUSINESS TAXATION	The aim of this unit is to enable individuals to understand taxation as it affects small and medium enterprises (SMEs) and small and medium practices (SMPs). To provide individuals with the skills to prepare basic tax computations and advise others of the effects of taxation and impact of tax on decision-making.	15	Yes
QUANTITATIVE METHODS	This unit will enable learners to further develop understanding and skills in the application of quantitative methods appropriate to support decision-making in organisations.	15	Opt
ASSURANCE	The aim of this unit is to provide learners with an understanding of the concept of assurance. Learners will consider the responsibilities of different stakeholders when completing assurance engagements and will gain an understanding of internal controls and their importance in assurance engagements as well as gain a practical understanding of how to gather the required evidence for all assurance activities.	15	Opt

Level 5 Extended Diploma in Computing

Unit Name	Unit Aims	Credits	Mandatory
COMPUTING PROJECTS FOR DIGITAL TRANSFORMATION	This unit enables learners to begin to think about how digital transformation may benefit their organisation, their job role, or the day-to-day activities within their organisation or their team. This understanding should be pathway neutral as learners at Level 5 will be expected to understand and contribute to plans for a digital transformation, regardless of their role.	15	Yes
PROFESSIONAL DEVELOPMENT AND BUSINESS COMMUNICATION	This unit builds on the professional practice content first introduced in Level 4's Unit 21 (Synoptic Project and Professional Best Practice) where learners considered team behaviours that contribute to effective working, written and oral communication and wider considerations such as ethical practice and an understanding of relevant legislation.	15	Yes
PROFESSIONAL DEVELOPMENT AND BUSINESS COMMUNICATION	This unit builds on the professional practice content first introduced in Level 4's Unit 21 (Synoptic Project and Professional Best Practice) where learners considered team behaviours that contribute to effective working, written and oral communication and wider considerations such as ethical practice and an understanding of relevant legislation.	15	Yes
INNOVATIVE TECHNOLOGIES AND CONNECTED DEVICES	This unit aims to equip you with an understanding of innovative technologies like AI, IoT, Blockchain, AR, VR, and the world of connected devices. You will explore their applications, understand their working principles, and learn about their implementation and ethical challenges. This knowledge and skill set will prepare you to navigate the ever-evolving digital landscape..	15	Yes
INFORMATION SYSTEMS	When working in industry, IT practitioners must be able to see the bigger picture, drawing on all of their knowledge and previous experiences to find the best and most viable solutions to the problem. This is particularly important when working with non-technical managers who may not understand the technologies that they need to be able to perform their role. Practitioners must be able to share their knowledge and understanding in an appropriate way to promote the use of data and information systems to support modern business and enterprise.	15	Yes
ADVANCED DATABASE PRACTICE	This unit will teach the learners relational theory concepts such as normalisation, foreign keys, ensuring consistency, three value logic, indexes for efficiency, database optimisation etc. As an advanced course, it will presume that the learners have some familiarity with basic SQL extraction and manipulation techniques, such as those taught in L4 Unit 8. It will teach how to create various database objects and their benefits, e.g. tables, dynamic/materialised views, triggers, stored procedures, user defined functions etc.	15	Opt
PROGRAMMING FOR DATA ENGINEERING	This unit introduces various tools and languages used for data engineering. It presumes that the learners have a basic understanding of programming at the level normally taught in L3 or L4 computing programming syllabi. It will use the SciPy ecosystem of module in Python (mostly pandas and matplotlib) to perform efficient programmatic data loading and data manipulation using a variety of functions provided by the modules.	15	Opt

Level 5 Extended Diploma in Business Management

Unit Name	Unit Aims	Credits	Mandatory
BUSINESS ORGANISATIONS IN A GLOBAL CONTEXT	This unit develops learners understanding of the issues organisations face operating within a global context. This understanding will allow learners to review the issues currently impacting on business organisations.	15	Yes
RESEARCH PROJECT	The aim of this unit is to develop the skills required for the learner to formulate an appropriate research question and to design and undertake a research project to answer that research question. The learner will also need to interpret the outcomes of their research and present them to an audience.	15	Yes
PEOPLE MANAGEMENT	This unit will enable learners to understand how to manage individuals and teams. They will study organisational factors and how these impact on and influence individual and team behaviour, as well as learning management tools and techniques to help them effectively manage individuals and teams.	15	Yes
FINANCE FOR MANAGERS	The unit aims to equip learners with the knowledge and understanding of the sources and use of finance in organisations and how to evaluate and interpret financial data.	15	Yes
MANAGING COMMUNICATION	This unit aims to develop knowledge and understanding of communication within and between organisations. Learners will also review their own communication skills in an organisational context.	15	Opt
MARKETING PRINCIPLES AND PRACTICE	To develop knowledge and understanding of general marketing principles and their application in business.	15	Opt
MANAGE SUSTAINABILITY IN AN ORGANISATION	This unit will enable learners to acquire the knowledge and understanding of sustainability, as it relates to organisations. This includes the legal and regulatory requirements and how to achieve relevant quality standards. The unit will also enable learners to develop skills required to audit sustainability.	15	Opt

Level 5 Extended Diploma in Law

Unit Name	Unit Aims	Credits	Mandatory
EQUITY AND TRUSTS	This unit will equip learners with in-depth knowledge and understanding of the principles governing the law of Equity and Trusts. The unit aims to enable learners to understand and apply equitable rules to fact-based scenarios, to identify and resolve issues that potential clients may face in the context of different types of trusts and equitable remedies. Learners will explore how equity interrelates with other legal topics and how equitable principles apply in domestic and commercial context.	30	Yes
EU LAW	This unit will equip learners with knowledge of the European Union legal system and the main substantive aspects of the European Union laws. The unit aims to enable learners to understand the history that led to the creation of the union, the political institutions of the EU, the role and the jurisdiction of the Court of Justice. Learners will be introduced to the fundamental rights given to individuals guaranteed by the Union and to the relationship between European and national laws.	30	Yes
LAND LAW	This unit will equip learners with an in-depth knowledge and understanding of the principles governing land law. The unit aims to enable learners to appreciate the scope of estates and interests in land and their method of protection. Learners will explore the meaning of real property, the types of legal and equitable interests in land, the principles of registration and its purpose and the rules behind the operation of selected proprietary rights.	30	Yes
LAW OF TORT	This unit will equip learners with in-depth knowledge and understanding of the principles governing the law of tort. The unit aims to enable learners to understand the foundations of tortious liability, remedies and defences. It further aims to enable learners to apply rules governing a variety of specific torts to fact-based scenarios and to identify and resolve issues that claimants and defendants may face. Learners will explore how tort interrelates with criminal law and how social and political decisions impact on the understanding of negligence.	30	Yes

Student Life

At Josben International College UK, we offer a supportive and inclusive environment for our students. Our student life services include:

- Accommodation assistance: We help students find suitable accommodation options in London, including homestays and student halls.
- Student support services: Our dedicated team provides guidance on academic, personal, and welfare issues.
- College facilities: Students have access to our modern campus, including libraries, computer labs, and social spaces.
- Social activities: We organize regular social events, cultural celebrations, and excursions to explore London and the UK.
- Career development: We provide workshops, seminars, and one-to-one guidance to help students develop their career aspirations.
- Language support: We offer additional English language classes and support to help students improve their language skills.

Our student life services are designed to ensure that our students have a fulfilling and successful experience at both the UK campus and Nigerian campus of Josben International College UK.
